Editors

Advances in Biofuels

 Springer

Contents

Part I Biofuels Opportunity

- 1 Prospect, Challenges and Opportunities on Biofuels in Malaysia.....** 3
Soh Kheang Loh and Yuen May Choo
- 2 Investment Opportunities at Palm Oil Industrial Cluster (POIC) Lahad Datu with Special Reference to Biofuels** 15
Teck Wai Pang and Ming Tong Lee

Part II Biomass Conversion

- 3 Biomass Conversion to Fuel (Solid, Liquid and Gas Fuel).....** 29
Suzana Yusup, Murni Melati Ahmad, Anita Ramli, Khan Zakir, and Mas Fatiha Mohamad
- 4 Online Mass Spectrometric Analysis of Sulfur Compounds from Hydrothermal Reactions of Biomass Wastes for Hydrogen Production** 41
Matlal Fajri Alif, Kozo Matsumoto, and Kuniyuki Kitagawa
- 5 Utilisation of Palm Oil Wastes for Biofuel and Other Value-Added Bio-Products: A Holistic Approach to Sustainable Waste Management for the Palm Oil Industry** 53
Keat Teong Lee and Cynthia Ofori-Boateng
- 6 In Situ Spectroscopic Monitoring of Straight Vegetable Oil Combustion Properties (Sunflower and Soybean Oils).....** 89
Nelfa Desmira, Shigeaki Morita, and Kitagawa Kuniyuki
- 7 Low-Cost Alternative Renewable Energy Bioethanol Production from Palm Oil in Malaysian Context** 97
Ravindra Pogaku, Tapan Kumar Biswas, and Rahmath Abdulla

Part III Biodiesel Production

- 8 A Bio-Route Production of Biodiesel**..... 107
A.H. Kamaruddin, N.A. Serri, J.H. Sim, S.F.A. Halim,
and S.R.A. Rahaman
- 9 Catalysis in Biodiesel Synthesis: Challenges
and Future Perspectives** 127
Ahmad Hafidz Mohammad Fauzi and Nor Aishah Saidina Amin
- 10 Higher Grade Biodiesel Production by Using Solid
Heterogeneous Catalysts**..... 153
Y.H. Taufiq-Yap and H.V. Lee

Part IV Enzymatic Biofuels

- 11 Enzymatic Process for Biodiesel and High
Value-Added Products**..... 179
George Chou
- 12 Stability Studies of Immobilized *Burkholderia cepacia*
Lipase and Its Application in Biodiesel Production
from *Jatropha curcas* Oil** 191
Rahmath Abdulla and Ravindra Pogaku

Part V Algal Biofuels

- 13 Fermentation Study on Macroalgae *Eucheuma cottonii*
for Bioethanol Production via Varying Acid Hydrolysis**..... 219
Rachel Fran Mansa, Wei-Fang Chen, Siau-Jen Yeo, Yan-Yan Farm,
Hafeza Abu Bakar, and Coswald Stephen Sipaut
- 14 Membrane Photobioreactor as a Device to Increase
CO₂ Mitigation by Microalgae**..... 241
Rosalam Hj. Sarbatly and Emma Suali
- Index**..... 259
